# Trevor Harris, PhD

## Contact

Department of Statistics
University of Connecticut

trevor.a.harris@uconn.edu
863-255-335

My research develops rigorous statistical and machine learning methods for modeling complex spatiotemporal processes, with a strong focus on climate science. I work on methods for comparing and integrating global climate models with observational data, on uncertainty quantification with finite-sample statistical guarantees, and on methods for discovering dependence structures in high-dimensional systems. My work bridges statistical theory with scalable machine learning, drawing on optimal transport, generative modeling, conformal inference, and deep neural operators to improve reliable scientific inference.

## Education

**PhD Statistics** 2016 – 2021
University of Illinois at Urbana-Champaign, Champaign, IL
Advisor: Dr. Bo Li
Thesis: *Functional Data Methods for Climatological Processes*

**MS Statistics** 2016 – 2018
University of Illinois at Urbana-Champaign, Champaign, IL

**BS Mathematics** 2010 – 2014
University of Florida, Gainesville, FL
Advisors: Dr. Murali Rao and Dr. Farid AitSahlia
Thesis: *Estimating an optimal stopping time policy for American options*

## Experience

**Assistant Professor**, Department of Statistics, AI/ML Cluster 2024 – Present
University of Connecticut, Storrs, CT

**Assistant Professor**, Department of Statistics 2021 – 2024
Texas A&M University, College Station, TX

**Research Assistant**, Department of Statistics 2017 – 2021
University of Illinois, Champaign, IL
Advisor: Dr. Bo Li

**Graduate Intern**, Mission Algorithms R&S Summer 2018, 2019–2020
Sandia National Laboratories, Albuquerque, NM
Advisor: Dr. J. Derek Tucker

**Product Modeling Analyst**, Underwriting Research 2014 – 2016
GEICO, Washington D.C.

## Teaching Experience

**Instructor**, Department of Statistics 2024 – Present
University of Connecticut, Storrs, CT

–STAT 4195/5095: Special Topics: Deep Learning
–STAT 2225: Introduction to Statistical Programming (Python)

**Instructor**, Department of Statistics 2021 – 2024
Texas A&M University, College Station, TX

–STAT 211: Principles of Statistics I
–STAT 438: Bayesian Statistics
–STAT 335: Principles of Data Science
–STAT 421: Machine Learning
–STAT 600: Reproducible computational statistics

**Teaching Assistant**, Department of Accounting 2017
University of Illinois, Champaign, IL

–ACCY 570: Data Analytics Foundations for Accountancy
–ACCY 571: Statistical Analyses for Accountancy

**Teaching Assistant**, Department of Statistics 2016 – 2017
University of Illinois, Champaign, IL

–STAT 400: Statistics and Probability I

## Awards and Honors

1. Top 10 most-cited papers in Environmetrics (2022-2023) 2024
2. Best paper award for The Journal of Agricultural, Biological, and Environmental Statistics (JABES) 2024
3. Horace W. Norton Prize for outstanding thesis research in Statistics 2021
4. Selected as one of nine students to represent the University of Illinois in the national competition for the Schmidt Science Fellows Program 2020
5. Selected to attend the NextProf Science Workshop (canceled due to Coronavirus) 2020
6. Honorable mention in the ICSA Midwest student poster competition 2019
7. UIUC Statistics Department's Leadership and Service award 2019
8. Awarded travel funding for the 2019 STATMOS Spatial Statistics Workshop 2019
9. UIUC List of Teachers Ranked as Excellent by Their Students 2016
10. Graduated *magna cum laude* at University of Florida 2014

## Publications

1. Greiffenstein, E., **Harris, T.**, Smith, B. (2025) *Forecasting West Nile Virus with Deep Graph Encoders*. Annals of Applied Statistics *In review*.

## Working Papers

1. Li, B., **Harris, T.** *Statistical Methods in Climate Science.* To be submitted.

2. Yang, J., **Harris, T.**, Arroyo, J., Bhowmick, S., Smith, B. *Estimating Adaptive Mosquito Control Policies via Graph Reinforcement Learning.*

3. Manna, A., **Harris, T.** *Conditional Flow Matching for Computationally Efficient Global Climate Model Emulation*

4. Zhao, S., Kuo, C.L., Lenze E., Wetherell J., Fortinsky R., Kuchel, G., **Harris, T.**, Diniz, B. *Senescence-Associated Secretory Profile (SASP) Score: Biomarker for Cellular Senescence Using a Transformer Based Deep Neural Network.* To be submitted.

5. Zhao, S., **Harris, T.** *Local Fréchet Regression for Probabilistic Climate Model Calibration with Spherical Neural Operators*

6. Nill, C., **Harris, T.** *Conformal Prediction for Spatiotemporal Point Processes on Smooth Manifolds*

7. **Harris, T.** *Disentangling Climate Ensembles with Selective Context Flows: An Information-Theoretic Analysis*

8. **Harris, T.**, Spencer, N. *Bayesian Conditional Flow Matching as Computationally Efficient Bayesian Nonparametric Modeling*

9. Gao, E., **Harris, T.**, Bruce, S. *High Dimensional Granger Causality from Probabilistic Deep Neural Networks*

10. Gailliot, S., **Harris, T.**, Katzfuss, M. *Sequential Climate Attribution with Bayesian Transport Maps*

11. **Harris, T.** *Probabilistic Sequential Causal Impact with Proper Scoring Rules*

## Funding

1. Sandia, Uncertainty Quantification with Conformal Inference. Amount: $234,000, 10/01/2024 - 09/30/2027 Role: PI.

2. Sandia, Assessing Climate Intervention Outcomes via Bayesian Transport Maps. Amount: $300,000, 04/19/2022 - 09/19/2024 Role: PI.

3. Burroughs Wellcome Trust Fund, Modeling West Nile virus under extreme climate. Amount: $10,000, 03/01/2023 - 02/29/2024. Role: PI.

4. Texas A&M Seed Grant Program for Promoting Research Collaborations, Machine-Learning Phenotyping for Unmanned Aircraft System-based Dryland and Irrigated Corn Classification and Yield Estimation. Amount: $10,000, 05/01/2022 - 09/01/2023. Role: Co-PI, PI: Anthony Filippi

5. Sandia, Probabilistic Machine Learning Methods For Uncertainty Quantification. Amount: $15,000, 05/19/2022 - 09/30/2022. Role: Collaborator, PI: Hongkyu Yoon

## Invited Talks

1. *Locally Adaptive Conformal Inference for Operator Models*, LACSC, Valparaiso Chile, Nov 2025
2. *Locally Adaptive Conformal Inference for Operator Models*, CMU, Pittsburgh PA, Oct 2025
3. *Locally Adaptive Conformal Inference for Operator Models*, CUNY, NYC, NY, Oct 2025
4. *GraphMAGE: Graph Neural Networks for West Nile virus forecasting*, JSM 2025, Nashville TN, Aug 2025
5. *Locally Adaptive Conformal Inference for Operator Models*, UConn - Statistics, Storrs CT, Apr 2025
6. *Locally Adaptive Conformal Inference for Operator Models*, UConn - Earth Sciences, Storrs CT, Apr 2025
7. *Quantifying uncertainty in climate projections with conformal ensembles*, IMSI, Chicago IL, Mar 2025
8. *GraphMAGE: Graph Neural Networks for West Nile virus forecasting*, TIES 2024, Adelaide, Australia, Oct 2024
9. *Quantifying uncertainty in climate projections with conformal ensembles*, South Dakota State University, Brookings, SD, Oct 2024
10. *A statistical learning approach to multi-model ensemble analysis*, ENVR Workshop, Boulder, CO, Oct 2024
11. *Quantifying uncertainty in climate projections with conformal ensembles*, Climate Extremes Roundtable, Boulder, CO, Oct 2024
12. *Quantifying uncertainty in climate projections with conformal ensembles*, JSM, Portland, OR, Aug 2024
13. *Distributionally robust multi-model ensemble analysis with deep kernel learning*, Brigham Young University, Provo, UT, Feb 2024
14. *Distributionally robust multi-model ensemble analysis with deep kernel learning*, Hunter College, NY, NY, Nov 2023
15. *Multi-model Ensemble Analysis with Neural Network Gaussian Processes*, ICDS, Santiago, Chile, Nov 2023 (**Keynote**)
16. *Distributionally robust Multi-model Ensemble Analysis*, JSM, Toronto, Canada, Aug 2023
17. *Multi-model Ensemble Analysis with Neural Network Gaussian Processes*, EccoStat, Kyoto, Japan, July 2023
18. *Multi-model Ensemble Analysis with Neural Network Gaussian Processes*, SIAM GS23, Bergen, Norway June 2023
19. *Multi-model Ensemble Analysis with Neural Network Gaussian Processes*, ICSA, Ann Arbor, MI June 2023

20. *Multi-model Ensemble Analysis with Neural Network Gaussian Processes*, IISA, Golden, CO May 2023

21. *Multi-model Ensemble Analysis with Neural Network Gaussian Processes*, Notre Dame, South Bend, ID, Apr 2023

22. *Multi-model Ensemble Analysis with Neural Network Gaussian Processes*, IMSI, Chicago IL, Sept 2022

23. *Multi-model Ensemble Analysis with Neural Network Gaussian Processes*, JSM, Washington DC, Aug 2022

24. *Multi-model Ensemble Analysis with Neural Network Gaussian Processes*, NRC, Fairfax, Aug 2022

25. *Multi-model Ensemble Analysis with Neural Network Gaussian Processes*, ISBA, Montreal, June 2022

26. *Sliced Elastic Distance for Climate Model Validation*, ICSA, Gainesville, June 2022

27. *Multi-model Ensemble Analysis with Neural Network Gaussian Processes*, ATD, Fairfax, May 2022

28. *Variational target encoding for climate model integration*, JSM, Seattle, July 2021

29. *Elastic depths for identifying shape anomalies in functional data*, ISI WSC Virtual, July 2021

## Other Presentations

1. *Locally Adaptive Conformal Inference for Operator Models*, Sandia National Laboratories, Albuquerque NM, Jun 2025

2. *Validating Climate Models with Spherical Convolutional Wasserstein Distance*, NeurIPS , Vancouver BC, Dec 2024 (**Spotlight**)

3. *Variational target encoding for climate model integration*, AGU Fall Meeting, San Francisco, Dec 2020

4. *Variational target encoding for climate model integration*, CISL Climate Informatics, Oxford, Sept 2020 (**Spotlight**)

5. *Fast functional change point detection with total variation denoising*, JSM, Philadelphia, July 2020

6. *Evaluating proxy influence in assimilated paleoclimate reconstructions*, ENAR 2020 Spring Meeting, Nashville, Mar 2020

7. *Evaluating proxy influence in assimilated paleoclimate reconstructions*, AGU Fall Meeting, San Francisco, Dec 2019

8. *Evaluating proxy influence in paleoclimate reconstructions*, ICSA Midwest Chapter Meeting, Chicago, Oct 2019

9. *Elastic depths for identifying shape anomalies in functional data*, 62nd World Statistical Congress, Kuala Lumpur, Aug 2019

10. *Evaluating proxy influence in paleoclimate reconstructions*, JSM, Denver, Aug 2019

11. *Evaluating proxy influence in data assimilation algorithms*, Bohrer Workshop (UIUC), Champaign, Nov 2018

12. *Evaluating proxy influence in data assimilation based climate field*, CISL Climate Informatics (NCAR), Boulder, Sept 2018 (**Spotlight**)

13. *Evaluating proxy Influence and reconstruction skill in data assimilation based climate field reconstructions using extremal depth*, Joint Statistical Meeting, Vancouver, July 2018

14. *Functional change point detection with non-negative matrix factorization*, MARTIAN's Symposium, Sandia National Labs, July 2019

15. *An introduction to non-negative matrix factorization*, Intern Symposium, Sandia National Labs, June 2019

16. *Identifying phase and amplitude extremes in functional data with elastic depth*, Statistics Graduate Student Seminar (UIUC), Champaign, Mar 2019

17. *Testing the exchangeability of two spatiotemporal processes with applications to data assimilation*, Illinois Climate Seminar (UIUC), Champaign, Mar 2019

18. *Identifying phase and amplitude extremes in functional Data with elastic depth*, Sandia/UIUC Tech Talks (UIUC), Champaign, Sept 2018

19. *Elastic depth for amplitude and phase in functional data*, MARTIAN's Symposium, Sandia National Lab, July 2018

20. *Elastic functional principal component regression*, Intern Symposium, Sandia National Lab, July 2018

## Professional Activities

### Proposal/Technical Report Review

- Refereed papers for Journal of the American Statistical Association (JASA), Journal of the Royal Statistical Society (JRSS), Journal of Machine Learning Research (JMLR), International Conference on Learning Representations (ICLR), Journal of Multivariate Analysis (JMVA), Technometrics, Environmetrics, Biometrics, Climate Informatics, Statistical Methods & Applications, Stat, Journal of Climate, Climate of the Past,

### Other Activities:

- Member of the Humanistic AI Working Group
- Member of the Design & Analytics Lab for Urban Artificial Intelligence (DAL)
- Chaired session for ICDS 2023
- I-GUIDE Forum program committee 2023, 2024
- Organized a topic contributed session for JSM 2023

- Chaired session for JSM 2022, 2023
- Chaired session for IISA 2023
- Judge for Student Research Week 2022
- Judge for TAMU Datathon 2021

**Society Memberships:**

- American Statistical Association (2016–Present)
- Institute of Mathematical Statistics (2019–Present)
- American Geophysical Union (2019–Present)
- International Chinese Statistical Association (2019–Present)

## Service

**University of Connecticut**
Departmental level:

- Environmental Health & Safety 2025 – Present
- Artificial Intelligence and Machine Learning Cluster 2024 – Present
- Gratis Faculty Appointments committee 2024 – Present
- Graduate Examinations committee 2024 – Present

**Texas A&M University**
Departmental level:

- Grant Opportunities, Library & Web Site/Social Media committee 2021 – 2024
- Communications and University relations committee 2021 – 2024
- Colloquia and Special Events Chair 2023 – 2024
- PhD Qualifying Exam committee 2023 – 2024
- Supervising research for undergraduate students: Grant Schweikhardt and Nicholas Battin
- Supervising research for masters student: Ethan Greiffenstein and Sophia Lazcano
- PhD dissertation committee: Eric Gao (STAT), Xiaodi Hou (ARCH), Abdisalam Abdi (ENTO), Danial Drennan (STAT), Alexander Coulter (STAT), Samuel Gailliot (STAT), Donald Turner (STAT), Renat Sergazinov (STAT)

**University of Illinois at Urbana Champaign**
Departmental level:

- Founder and president of the PhD Student Seminar 2018 – 2021
- Founder and president of the Statistics Graduate Student Organization at UIUC 2017 – 2021
- President Statistics in the Community at UIUC 2017 – 2018

## Software

1. **LSCI:** Python package for computing Local Sliced Conformal Inference Github.
2. **confensemble:** Python package for computing conformal ensembles Github.
3. **SCWD:** Python package for computing the Spherical Convolutional Wasserstein Metric Github.

4. **fmci:** R package for functional change point detection with the multiple changepoint isolation method Github.

5. **elasticdepth:** R package for computing elastic depths and identifying shape outliers. Github.

6. **kstat:** R package for the Kolmogorov-Depth statistic for testing if two functional distribution are different. Github.

7. **extdepth:** R package for computing the extremal depths for functional data. Github.

## Tech

**Programming:** Python, R
